COBHAM PLC
AGM STATEMENT

RNS Number:8807X
Cobham PLC
06 June 2007

6 June 2007

AGM STATEMENT

Cobham plc ('Cobham', 'the Group') will hold its Annual General Meeting at 12:00 today at the offices of Dresdner Kleinwort, 30 Gresham Street, London. Gordon Page, Chairman, will make the following statement:

'2006 was a year of progress with the Group achieving good profit and earnings per share growth and a 2% point improvement in the trading margin. Good progress was also made in reshaping the portfolio and aligning the divisions. The focus on streamlining the business has permitted the Group to concentrate resources on its core technologies and bringing the best of Cobham to its customers.

After the first four months of 2007, trading is ahead of last year. In line with the pattern of previous years, trading in 2007 will be biased towards the second half. Cobham's businesses are well placed in growth markets, where there are many opportunities to leverage its products, services and technologies. The Group will continue to focus on PV investment and seek acquisitions that are a strong fit with its strategy.

In 2007, the Group has won some important new business, including Cobham's largest ever antenna award, worth up to \$248m for systems supplied to the US Army, Navy, Air Force and Marine Corps. Cobham Defence Communications based in Blackburn, UK was recently honoured with a Queen's Award for Enterprise in the International Trade category for the second time. This was in recognition of a 300% increase in the export of its digital Vehicle Intercom Systems over the last three years. The Group's strong order intake has resulted in an order book at the end of April 2007 of over £1.7bn.

On 30 May 2007, the Group announced it had reached agreement to purchase the assets of Patriot Antenna Systems ('Patriot') for cash consideration of \$18m with additional consideration of up to \$27m, contingent on future performance. The purchase is anticipated to complete in quarter three of 2007, subject to certain environmental clearances. Patriot is based in the USA and designs and manufactures parabolic antennas and a range of specialist Radio Frequency equipment. It will provide Cobham with a product, technology and capability set that can be exploited across the Group's antennas business.

In a statement to the House of Lords today, UK Ministry of Defence ('MOD') Defence Equipment and Support Minister Lord Drayson announced that the Government had approved a Private Finance Initiative solution as the most cost-effective means of replacing the RAF's fleet of VC-10 and Tristar aircraft. The Future Strategic Tanker Aircraft ('FSTA') consortium ('AirTanker') and the MOD are therefore now working together towards financial and contractual close of the programme. AirTanker has today begun work on the Financing Competition to raise the c.£2bn capital requirement. The first stage is to alert the banking community to the main elements of the programme. Cobham has been successful in negotiating a realignment of its shareholding in AirTanker so that it is closer to its pre-existing share of work. As a consequence, the Group's shareholding has reduced to 13%.

non-executive director with effect from 8 January 2007. Mark brings 35 years of experience in the US aerospace and defence industry, latterly as Chief Operating Officer and member of the Board of Directors of BAE Systems plc. The Board believes that he will add significant value to the Group as Cobham implements its strategy of focusing on high technology organic and acquisitive growth.

The Group has also previously announced the intention of Jeff Edington, a non executive Director of Cobham, to retire from the Board at the conclusion of today's meeting. I would like to thank Jeff for his wise counsel and considerable contribution to the Board over the last eleven years.

The Board remains committed to exploiting the Group's strong positions in rapidly growing markets. This strategy underpins the Group's drive for profitable growth and gives the Board confidence that the Group can achieve further underlying growth in 2007.'

NOTES

1. Cobham plc is an international company engaged in the development, delivery and support of advanced aerospace and defence systems for land, sea and air platforms. The company has five technology divisions and one in the service sector that collectively specialise in the provision of components, subsystems and services that keep people safe, improve communications and enhance the performance of aerospace and defence platforms.

2. AirTanker was selected as Preferred Bidder to operate the FSTA service in 2005. It is a UK company dedicated exclusively to providing the FSTA service to the UK MOD. In addition to Cobham (13%), AirTanker's shareholders are EADS (40%), Rolls-Royce (20%), Thales UK (13%), and VT Group (13%). Together, they will produce the equipment and support it through life.
